

Call for witnesses after violent crime

19-year-old female student found dead near Dreisam shore

On **10/16/16** at about 8.20 AM a 19-year-old female student from Freiburg was found dead on the southern shore of the Dreisam near the Ottiliensteg. A special investigation team of 40 officers from the CID has started their investigation. It has been established so far that the young woman has become the victim of a violent and sexually motivated crime. On the evening of 10/15/16 she had been with friends at a student party in the Institutsviertel before she started her way home well after midnight on her white women's bike.

Near the place she was found the investigators were able to secure a purple bike that had been abandoned there on the bicycle trail. If there is a connection to the crime is still unclear at this point.

Now the investigators have the following questions:

- **Who has seen the 19-year-old or her white women's bike between midnight and the time she was found on 10/16/16 at about 8.20 AM and can make a statement as to what happened?**
- **Who has information on the abandoned purple bike?**

Witnesses please contact the criminal police on **0761-882-5777**
